## TECHNOLOGY IN FARMING

**Sunday 12th March 2017 at 10 am**

Visit a local farm to learn how technology is used in modern farming.

**Technology** - Demonstration of advanced programmable tractor and baling equipment.

**Soil sampling/fertilising** - Demonstration and talk on the methodology used for fertilising land based on advanced soil analysis. How do you "put the heart back into the ground" or leave the soil in a better condition than it was before the farming started.

**Sheep farming** - Demonstration of automated, high tech, sheep handling equipment. See how sheep are scanned to find out how many lambs they are carrying.

**Free. Booking essential. Children welcome.**

**Children must be accompanied by an adult and supervised at all times.**
